Position of the students council with regards to the student ticket

- x no changes of the price in winter semester 18/19 independent of the referendum's outcome, but from the summer semester on
- x price increase is inappropriate high
- x **the main issue: if we decline the continuation of our contract we lose the students ticket – new negotiations from this position will lead to a substantial price increase**
- x **We suggest to accept the price increase on the behalf of all students of the University of Applied Sciences.**
